WORK EXPERIENCE

Web Developer | **Repla Security & Technology**

Rawalpindi, Pakistan

May 2022 – Present

- Collaborated with senior developers across all stages of the project lifecycle for client-facing web applications.
- Built dynamic, interactive web apps using React JS and Next.js ensuring optimal performance, scalability, and maintainability.
- Developed fully responsive websites with strong emphasis on cross-device compatibility, accessibility, and intuitive UX.
- Designed and integrated RESTful APIs and GraphQL endpoints enabling seamless front-end to back-end communication.
- Applied best practices in HTML5, CSS3, JavaScript, and Bootstrap across all projects.

Web Developer | **Heave Stack Software House**

Islamabad, Pakistan

May 2020 – December 2022

- Developed and maintained multiple production websites using ReactJS.
- Translated mockup designs into visually appealing, user-friendly web interfaces.
- Collaborated directly with clients to gather requirements and delivered ongoing technical support.
- Managed project timelines, resources, and milestones ensuring on-time delivery.
- Conducted thorough cross-browser and mobile testing to ensure compatibility and responsiveness.

KEY PROJECTS

Epicridelondon / Golden Chauffeur / Hair Plus Transplant

React JS-based client websites with polished UI, responsive layouts, and seamless API integration.

Jusoor Selling Platform / Store App Admin

Full-featured admin panels and marketplace systems built in React JS with advanced state management.

Hopsic Management System / Rental & Reservation Systems

Complex multi-panel reservation and management platforms built with React JS, featuring role-based access and real-time data flows.

Underground Empire / Medixo Product Platform (Next.js)

Next.js projects encompassing multi-panel dashboards and product platforms with SSR and optimized performance.

IPTV Duplex Admin Panel (Next.js + GraphQL)

Built a full-featured admin panel for an IPTV platform using Next.js and GraphQL. Implemented real-time dashboard analytics for monitoring active users and streaming stats, channel and playlist management with CRUD operations, and user/subscription management with role-based access control. GraphQL integration ensured efficient, flexible data fetching across all panel modules.

Online Course Platform / Responsive E-commerce Website

Bootstrap + jQuery-driven platforms with interactive learning experiences and mobile-optimized shopping flows.

Available for full-time opportunities • Open to remote & on-site roles
